PROFESSIONAL SUMMARY

Third-year Computer Science student specializing in full-stack development (Flutter, Node.js, Firebase) with experience building scalable applications and integrating AI APIs. Active in hackathons and student mentorship.

TECHNICAL SKILLS

Languages: JavaScript, Dart, Python, Java, C++, C#, SQL, PHP

Frontend & Mobile: Android Studio, Flutter (Riverpod, GoRouter), HTML, CSS

Backend & Cloud: Node.js, Express.js, Firebase (Auth, Firestore, Functions), Azure

AI: LSTMs, Random Forests, Gemini API, Google ML Kit **Tools:**

Git, GitHub Actions (CI/CD), REST APIs, Agile

EDUCATION

BSc in Computer Science | University of the Witwatersrand (2024 – Present)

EXPERIENCE, HACKATHONS & LEADERSHIP

Member | Coding and Digital Innovation Society (Present)

- Collaborate on society-wide initiatives to design, build, and deploy technical projects.

Member | Faculty of Best Advisory (FBA) (Present)

- Participate in specialized training focused on leadership, mentorship, and impactful community engagement.

Hackathon Competitor | Entelect (2025–2026)

- Built optimization algorithms for motorsport strategy (2026) and agricultural drone routing (2025)

Hackathon Competitor | Adapt IT (2025)

- Developed “HustleHub” gig-economy MVP (Flutter, Firebase)

First-Year Mentor | Wits FYE & FBA (2025–Present)

- Awarded “Best Science Student 2025”; supported first-year student success

Tech Ops Volunteer | Fak’ugesi & AMLD Africa (2025)

- Supported logistics and technical setup for innovation and AI conferences

TECHNICAL PROJECTS

MentorMenteeConnect - Full-stack university scheduling app using Gemini AI to autonomously suggest optimal meeting times <https://github.com/mahlatseclayton/MentorMate>

MzansiEd - EdTech platform using the Google Gemini API to power an intelligent conversational agent for tutoring and quiz generation. <https://github.com/mahlatseclayton/TutorAI>

Safely

Flutter e-hailing safety app with live tracking via Google Maps API and Google ML Kit for vehicle text recognition
